📍 Rivers, Port Harcourt State, Nigeria 🌐 github.com/Abosi-Godwin 📞 +234 906 601 6591

## SUMMARY

Full-Stack Developer with a growing portfolio of production web applications — from SaaS financial tools to full e-commerce platforms. Proficient in Next.js, React, TypeScript, Supabase, and AI integration (Gemini API). Equally capable in both frontend and backend, building everything from UI to database architecture. Former retail operations manager with sharp commercial instincts, enabling direct client acquisition, scope management, and ROI-focused delivery for Nigerian SMEs.

## EXPERIENCE

### Freelance Full-Stack Developer

#### Self-Employed

Jan 2026 – Present · Asaba, Delta State

- Designed, built, and deployed 10+ web applications across SaaS, e-commerce, agency, and marketing site categories — sole developer on every project.
- Acquired clients through targeted cold WhatsApp outreach with live demo sites as proof-of-concept, converting cold contacts into paid engagements.
- Built full-stack products with Supabase (auth + database), TanStack Query, Redux, AI API integration, and complete checkout + email flows.
- Delivered projects across Next.js (landing pages, agency sites) and React + Vite (web apps) stacks.

### Cosmetics Shop Manager

#### Retail (Self-managed)

Mar 2022 – Dec 2026 · Port Harcourt, Rivers State

- Managed full retail operations: inventory, supplier negotiations, sales, and customer engagement.
- Built practical understanding of Nigerian SME dynamics and customer psychology — directly informs how I scope and pitch web products today.

## FEATURED PROJECTS

### TrExpenser — Financial Management SaaS — [texpenser.vercel.app](https://texpenser.vercel.app)

React + Vite · Supabase (Auth + DB) · Redux · TanStack Query v5 · Gemini AI · Chart.js · ApexCharts · Tailwind CSS

- Full-stack web app for expense tracking, income management, savings goals, and budget planning — real users, real auth, real data.
- Integrated Gemini AI for intelligent financial insights and data summaries within the dashboard.
- Built a separate Next.js 15 + React 19 + TypeScript marketing landing page with Tailwind CSS v4 and Motion animations.
- Uses TanStack Query for server state and Redux for client state — production-grade architecture.

### LeesLagos — Full E-Commerce Platform — [leeslagos.vercel.app](https://leeslagos.vercel.app)

React · State Management · Cart System · Checkout Flow · Delivery Tracking · Email Integration

- Complete e-commerce platform with cart management, checkout, delivery tracking, and transactional email — every feature a real online store needs.

## KEY ACHIEVEMENTS

### 🏠 TrExpenser — SaaS Product

Built a full financial management SaaS app with real auth, database, AI insights, and production charts — not a tutorial clone.

### 🛒 Complete E-Commerce Delivery

Delivered LeesLagos with cart, checkout, delivery tracking, and email — the full stack of a real online store.

### 🤖 AI Integration in Production

Used Gemini AI in two live projects: financial insights in TrExpenser and a localised weather advisor for rural Nigerian users.

### 🎯 Direct Client Acquisition

Wins clients via targeted cold WhatsApp outreach using live demo sites — zero ad spend, measurable results.

### 📦 Commercial Background

3 years in retail operations informs scope control, client communication, and business-outcome-focused decisions.

## TECHNICAL SKILLS

### Languages & Frameworks

Next.js	React
TypeScript	JavaScript
Tailwind CSS	Node.js
HTML5	CSS3

### Backend & Data

Supabase	REST APIs
Redux	TanStack Query
React Hook Form	date-fns

### AI & Visualisation

Gemini AI	Chart.js
ApexCharts	Recharts

### Tooling & Deployment

Git · Vercel · Vite · Resend  
Cloudinary · Framer Motion · Motion v12  
Open Graph · JSON-LD · SEO Metadata  
Next.js App Router · Server Components

## AI Weather App — [weatherfourtwo.vercel.app](https://weatherfourtwo.vercel.app)

React · Weather API · Gemini AI · Tailwind CSS

- 7-day weather forecast app with Gemini AI acting as a local weather advisor — translates weather data into plain, culturally relevant language for rural Nigerian users unfamiliar with Celsius readings.

---

## SOFT-P — Creative Portfolio — [softp.vercel.app](https://softp.vercel.app)

Next.js 14 · TypeScript · Cloudinary · Framer Motion · JSON-LD SEO

- Portfolio for a Theatre Arts creative (acting, music, 2D animation) with Spotify-linked music section, Cloudinary video delivery, and full SEO (Open Graph + JSON-LD).

---

## Other Projects

SurePlug Auto (Next.js 16) · Visyoned (visyoned.vercel.app) · Track Bag · Solly Store · Big Taste Restaurant

- SurePlug Auto: OEM motor parts site built with Next.js 16 + Tailwind CSS v4 + Framer Motion v12.
- Track Bag: logistics and package tracking business site. Visyoned: eye care agency site.
- Solly Store: fully functional e-commerce cart and checkout built in vanilla HTML, CSS, and JavaScript.

---

## EDUCATION

### Self-taught — Full-Stack Web Development

2021 – Present · Documentation, project-based learning, open source

Maintains a complete development environment on Android via Termux (Node.js, npm, Git, full Next.js builds).

---
